

Claude Code

Welcome back Lijie!

Sonnet 4.6

> /colpack

Recalled 1 memory (ctrl+o to expand)

- ColPack simulation workflow ready. I'm in interactive mode – I'll handle one stage at a time.

What would you like to do?

(a)

Gemini CLI v0.37.1

Signed in with Google /auth

Plan: Gemini Code Assist in Google One
/upgrade

> /colpack

✓ Activate Skill "colpack": End-

Skill colpack activated. Resources
loaded from

(b)

> _ OpenAI Codex (v0.120.0)

model: gpt-5.4 high /model to change

> \$colpack

- Using the colpack skill in interactive mode. I'm checking the setup-stage reference now so I can ask only for the required inputs before preparing the first tool payload.
- Explored
 - ↳ Read 1_setup_problem.md
